Dear Ms. Chakrabarti

I am writing today to request some advice regarding an extremely serious situation which has developed over a large number of years, driven it appears, by the British State and some allied national agencies from overseas, as well as some global businesses. My life has been virtually completely infiltrated, and taken over by Security Services (MI5 and GCHQ, along with similar national agencies from other countries), and my rights and freedoms greatly damaged.

I have documented as much as I have gleaned and published it on my website (see British State Project at [www.stevekrupa-gb.com](http://www.stevekrupa-gb.com)), I have not enclosed a paper copy here as it will be easier for you to access my website where you can download all the details. I regularly update the documentation as new experiences and analysis reveal more possibilities. Please read the document and provide me with advice about what I can do. It seems that the British State has instilled fear into all parts of the country, to prevent *anyone* giving me the assistance I require.

The situation is extremely complex and very, very serious. I realise that you probably get a lot of correspondence, but I urge you to look into this issue. Communications to me may be tampered with so it's not clear how to best contact me. You can add a post to my Blog page on my website – this may be the best way, but you can try email ([stevekrupa@gmx.co.uk](mailto:stevekrupa@gmx.co.uk)) or writing to the above address.

Thank you in advance, and warmest regards,

Steve Krupa
